To Remove Grease Stains.

A mixture which is excellent for removing grease stains from carpets and clothing is made of two ounces of ammonts, two ounces of white castile soap, one cunce of glycerine and one ounce of etter. Cut the soap into small pieces and dissolve in one pint of water over the fire, then add two quarts of water and the other ingredients. This should ther be mixed with more water in the proportion of one tencup to one ordinary sized patiful. The soiled articles should be thoroughly washed in this.
